

# Frequently Asked Questions

## Students with Disabilities

### **How can I participate in the IEP process during this time?**

*As a parent or guardian of a student with a disability, you will be invited to be part of the IEP process. The meeting will take place virtually, either via telephone or computer conferencing. The process will be the same in that you will receive an invite from the school, information will be collected from you, and you will get a draft of the IEP that will be discussed.*

### **How do I sign the paperwork for the IEP and ESR?**

*When it is time for you to sign and return paperwork to the school, the SEC will give you specific instructions. You will be asked to verify a statement and send your name back with the statement with a specific certification to make it official.*

### **What is Teletherapy?**

*Teletherapy is providing therapy (speech, occupational, physical, social/emotional, etc.) through a live video connection via the internet. Our related service providers will be connecting with the students using Schoology, Zoom, FaceTime, and other platforms.*

### **Who do I contact if I have questions about my student's progress or the IEP?**

*As always, if you have questions about your child, please contact his or her teacher first. The teacher is their closest point of contact and can usually answer the majority of the questions. However, if you still need assistance, feel free to reach out to the building Special Education Coordinator (SEC).*
