CHAPTER I

INTRODUCTION

The Colonial School District is dedicated to achieving its mission, “to provide high quality education to all students to become well-rounded, contributing members of society by offering a comprehensive academic program in a safe and nurturing environment conducive to learning. Colonial fosters a strong sense of community by building partnerships between its employees, the students, their families, businesses, and other constituencies.”

WHAT IS THE CODE OF STUDENT CONDUCT?

The Code is an official document of the Colonial School District Board of Education which:

- Describes a positive and safe school environment;
- Specifies the rights and responsibilities of students;
- Defines attendance responsibilities;
- Safeguards the rights of students;
- Defines conduct that disrupts a positive and productive learning environment;
- Standardizes procedures for disciplinary action; and
- Incorporates the State Board of Education Policy for school districts on possession, use, and distribution of drugs and alcohol, etc.

Provisions in the Code of Conduct apply to all students in Grades PK-12. Differences in age and maturity are considered in determining the type of disciplinary action to be taken. All students have a greater responsibility for their actions, as they increase in age. This Code does not restrict the Board’s legal/statutory authority to protect the health, safety, and welfare of students and staff.

A copy of the Student Code of Conduct is available to students on school entry or online, as indicated on the “Acknowledgement of Receipt” form. Orientation to the code is held in each school at the beginning of the school year. Questions by students or by parents/guardians concerning the Code should be directed to the principal of the school. Additionally, a copy of the Student Code of Conduct is posted on our website: www.colonial.k12.de.us.

WHEN IS THE CODE IN FORCE?

The Code is in force:

- On school property prior to, during, and following regular school hours
- While students are on a school bus or in a District vehicle for any purpose
- At all school-sponsored events and other activities at which school administrators/staff have jurisdiction over students

OUT OF SCHOOL CONDUCT

The Code of Conduct shall also apply to out-of-school conduct by a student if the District believes that the nature of such conduct indicates that the student presents a threat to the health, safety, and welfare of other students, or to the reputation of a school or the District.

Such out-of-school conduct shall include, but is not limited to:

- Acts of violence which are punishable by law
- Sexual offenses which are punishable by law
- The sale, transfer, or possession of drugs which would constitute an offense punishable by law
- Felony charges

Additionally, the principal/administrator is authorized to take administrative action when a student's misconduct to and from school has a harmful effect on other students, the community, or the orderly conduct of school business.

Days as used in this document is defined as days in which school is in session. When school is out of session, such as during the winter, spring, or summer breaks, the time limits shall be used as guidelines but not requirements.

WHAT IS A GOOD SCHOOL ENVIRONMENT?

A good school environment is best described as:

- SAFE and POSITIVE
- Providing a range of educational opportunities
- Making improvement of student behavior the primary goal of disciplinary action

It is also the presence of a friendly, yet businesslike atmosphere in which students and school personnel work cooperatively toward recognized and acceptable goals. A good school environment is free from distractions, friction, and disturbances.

CONFLICT RESOLUTION/MEDIATION

It is the philosophy of the Colonial School District that students and staff should be proactive in their approach to behavior management. Therefore, conflict resolution and mediation strategies should be employed in a proactive manner to assist students and staff in addressing conflict and discipline issues.

WHO ESTABLISHES A GOOD SCHOOL ENVIRONMENT?

The Code recognizes the need for a working, cooperative relationship among students, parents, and school personnel. This relationship is most productive when

STUDENTS:

- Attend all classes daily and on time;
- Are prepared for class assignments and activities;
- Come to class with appropriate working materials;
- Respect all persons and property;
- Refrain from using profanity, abusive language, or inflammatory actions in personal interactions;
- Conduct themselves in a safe and responsible manner;
- Are healthy, clean, and neat;
- Are responsible for their own work and behavior;
- Abide by the rules and regulations set forth by the school and individual classroom teachers; and
- Seek changes in an orderly and approved manner.

PARENTS/GUARDIANS:

- Keep in contact with the school concerning their children's progress and conduct;
- Ensure that their children attend school each day and promptly report and explain an absence or tardiness to the school;
- Provide their child with resources needed to complete classwork and homework;
- Assist their children in being healthy, neat, and clean;

- Refrain from using profanity, abusive language, or inflammatory actions in personal interactions;
- Bring to the attention of school authorities any problem or condition which affects their children or other children of the school community;
- Discuss report cards and work assignments with their children;
- Attend Parent/Teacher conferences;
- Maintain up-to-date home, work, and emergency numbers at the school; and
- Seek changes in an orderly and approved manner.

SCHOOL PERSONNEL:

- Are in regular attendance and on time;
- Are prepared to perform their duties with appropriate working materials;
- Respect all persons and property;
- Refrain from using profanity, abusive language, or inflammatory actions in personal interactions;
- Conduct themselves in a safe and responsible manner;
- Are healthy, clean, and neat;
- Abide by the rules and regulations set forth by the school;
- Seek changes in an orderly and approved manner;
- Maintain an atmosphere which encourages good behavior and active learning;
- Plan flexible and differentiated lessons to meet the needs of all students;
- Develop a good working relationship among staff, students, and parents/guardians;
- Encourage the school staff, parents, and students to use the services of community agencies;
- Utilize good guidance procedures and practices;
- Encourage parents to maintain regular communication with the school;
- Provide opportunities for parent participation in affairs of the school;
- Encourage and maintain the involvement of students in the operation of the school, i.e. student government;
- Involve the community in order to improve the quality of life within the school and the district; and
- Engage in dialogue with parents, students, and other employees in a manner that reflects professionalism and caring.

CHAPTER II

STUDENT AND PARENT RESPONSIBILITIES AND RIGHTS

Within every school, the principal has the primary responsibility and authority for maintaining an orderly educational environment. The Colonial School District Board of Education guarantees students the freedoms allowed by law, provided these freedoms do not endanger the health, safety, and welfare of the students or staff.

Students of majority age, i.e. 18 or older; are responsible for their own actions. All students 18 years of age or older will be treated as adults for purposes of reporting violations of this policy and the law to the police. Students 18 years of age or older shall also be on notice that their parents and/or guardians will be notified (if their address and/or telephone number is known to the school) of the student's actions in accordance with this policy.

The School Board recognizes and supports students' and parents' rights and corresponding responsibilities. In this section, any reference to rights and responsibilities of parents also applies to students at or over the age of 18.

The District is compliant with Title IX. Title IX complaints are to be directed to the Director of Human Resources, Colonial School District, 318 E. Basin Road, New Castle, DE 19720, 302-323-2712.

CURRICULUM

Philosophical Basis

The degree of student involvement in curriculum development depends upon the age, grade, and level of maturity of the student. Since curriculum is designed for students, as well as for the present and near-future community, student opinion is important and deserves consideration.

Responsibilities

Students have the responsibility

1. To seek curriculum clarification, if necessary, from informed persons in the school;
2. To strive for mastery of academic skills by participating in available learning activities and programs;
3. To contribute toward the development of a positive climate in the school that will lead to wholesome learning and living;

4. To respect the rights of other individuals who have different viewpoints and to become informed about issues being studied;
5. To involve themselves in school district-approved communities and to enrich the classes in which they are enrolled through participation in planning and evaluation; and
6. To explore and participate in any extra-curricular activity that corresponds to their abilities, interests, and eligibility.

Rights

Students have the right

1. To have access to clear and precise course descriptions that will help them make informed selections;
2. To participate in courses and programs appropriate to their individual needs at all grade levels;
3. To study all subjects in an atmosphere free from bias and prejudice;
4. To study any issue which relates to their course and which is within their level of maturity and within the scope of the course and to have access to all available information that relates to course objectives;
5. To participate on committees and in curriculum planning at the school and district levels; this right is restricted to secondary students who are selected according to guidelines established by the district; and
6. To equal access to any extracurricular activity corresponding to their interests and abilities (and for which they are eligible according to the District Policy for Student Participation in Extracurricular Activities).

GRADES

Philosophical Basis

Grades are one indicator of the student's learned knowledge or skill proficiency at a particular time. A student's grades should reflect the teacher's best assessment of the student's achievement, based on student data and measured in relation to the standards addressed by the course.

Responsibilities

Students have the responsibility:

1. To ask for an explanation of a grading system which they do not understand;
2. To attain standards of academic performance according to their abilities;

3. To share all notices of unsatisfactory progress with their parents/guardians and to make every effort to improve their performance;
4. To conduct themselves in a manner which fosters a good learning environment;
and
5. To present assignments when due.

Rights

Students have the right

1. To receive a written copy of a teacher's grading system at the beginning of each course;
2. To receive an academic grade that is based on the teacher's grading system and reflects the student's academic achievement;
3. To request and receive written notification of unsatisfactory progress at any time during the marking period.
4. To have grades used positively and not as a disciplinary tool; and
5. To be given appropriate notice of assignment due dates.

CONSULTATION

Philosophical Basis

Personal needs or concerns can seriously threaten and interfere with the educational development of students. Schools have the responsibility to provide counseling services for students and to inform students of services provided by other agencies.

Responsibilities

Students have the responsibility

1. To identify and/or report personal or school-related problems, concerns, or issues to appropriate staff, counselors/advisors;
2. To use counseling services for their educational and personal development, where appropriate;
3. To schedule appointments in advance unless the problems or concerns are of an emergency nature. Parents and students have the responsibility of providing information that may be useful in making intelligent educational decisions; and

4. To use counselors'/advisors' services for personal or school-related problems, concerns, or issues.

Rights

Students have the right

1. To be accurately informed as to the nature, kind, or type of guidance services available in their school and community;
2. To receive appropriate counseling for personal and educational problems within a reasonable amount of time; and
3. To have access to counselors/advisors on the staff.

ATTENDANCE

Philosophical Basis

School administrators have an obligation under State Law to enforce compulsory school attendance laws. Students have an obligation to take advantage of the opportunity for a public school education.

Responsibilities

Students have the responsibility

1. To take advantage of their educational opportunities by attending all classes daily and on time;
2. To provide the school with a note explaining the reason for an absence; and
3. To initiate contact with teachers to request and receive make-up work after an approved EXCUSED absence and to complete all make-up work within the length of time specified in District attendance regulations and procedures (See Chapter III – School Attendance).

Rights

Students have the right

1. To receive school policies that clearly define excused absences, unexcused absences, or tardiness;
2. To appeal a decision concerning an absence (excused or unexcused).
Participation in a school-approved activity shall be considered an excused absence; and

3. To make up assignments, projects, and tests missed during an approved excused absence, according to school District regulations and procedures.

FREE SPEECH/EXPRESSION

Philosophical Basis

One of the purposes of the schools is to prepare students for responsible self-expression in our society. Students may inquire, question, and exchange ideas with neither real nor implied penalty. While self-expression is permitted under the First Amendment to the Constitution, it must not interrupt the orderly educational process of the school or be in violation of the Code of Conduct. Free expression must not be obscene, false statements, disruptive, or abusive.

Responsibilities

Students have the responsibility

1. To act in a quiet, dignified manner during patriotic activities;
2. To inform the school of activities which are in conflict with their religious beliefs;
3. To make reasonable requests to conduct surveys and petitions. The results obtained must be reported accurately;
4. To be well informed about issues and to express their opinions in a reasonable place and time; and
5. To plan, get approval, and hold activities which are based upon educational objectives.

Rights

Students have the right

1. To participate in activities. Students also have the right to be excused from any patriotic act that is against their religious beliefs or deep personal conviction;
2. To be excused from any activity which is against their religious beliefs (as confirmed with the appropriate religious officials);
3. To petition and survey other students' opinions by following established school and District approval procedures.
4. To respectfully express their own opinions on issues;
5. To assemble peaceably on school property at a time and place designated by the principal. This right will be denied if it endangers the health or safety of others, damages property, or disrupts the activities of others.

STUDENT GOVERNMENT

Philosophical Basis

The student government is a means of providing students with an opportunity to express themselves and to act on school matters through the democratic process. All members of the school community share the responsibility for helping the student government. Students should be given the opportunity to participate in those decisions that affect the learning climate of the school. So that the student government can function as an informed organization, School Board policies and individual school policies should be made available.

Responsibilities

Students have the responsibility

1. To work, as members of the student government, on the needs and concerns expressed by the student body;
2. To seek prior consent of any faculty member recommended as an advisor;
3. To conduct election campaigns in a positive, mature manner with all due respect provided other candidates; and
4. To participate in student government activities in an appropriate manner, demonstrate positive leadership, and operate within District and school regulations.

Rights

Students have the right

1. To form and operate a student government within their particular school under the direction of a faculty advisor. This right shall be carried out within the guidelines and practices recommended by the National and State Student Government Association and within the rules and regulations of the School District;
2. To recommend members of the faculty to serve as sponsors for their school's government organization;
3. To seek office in student government regardless of race, sex, color, creed, or political beliefs; and
4. To attend official student government meetings as student government officers and representatives in accordance with school regulations.

PUBLICATIONS

Philosophical Basis

One of the important roles of the school is to provide effective ways in which students may express themselves on a wide range of subjects. Official school publications, such as school newspapers, should reflect the policy and judgment of the student editors and should include viewpoints representative of the entire school community.

Responsibilities

Students have the responsibility

1. To use only those bulletin boards or wall areas designated for use by students and student organizations; Students must also accept responsibility for the effect that the posting, publication, or distribution of literature might have on the normal activities of the school; and
2. To refrain from publishing and/or distributing false statements and obscene materials, to seek full information on the topics about which they write, to observe acceptable standards of good taste, and to observe the normal rules for responsible journalism. Principals will suppress or recall literature which they consider primarily commercial in nature, or material which could disrupt the orderly operation of the school.

Rights

Students have the right

1. To possess, post, and distribute literature which will not disrupt the school program and which follows the District's guidelines for responsible journalism; and
2. To be free from censorship of their publications within the guidelines previously agreed upon by students and administrators.

STUDENT DRESS

Philosophical Basis

Student dress may vary with the age of the student, instructional activity, and physical conditions in the school. The dress and grooming of students shall contribute to the health and safety of the individual and shall not disrupt the orderly educational process. Student clothing and accessories shall neither endorse nor tacitly approve products and practices which are prohibited by law or school District policy.

Responsibilities

Students have the responsibility

To follow guidelines for dressing and grooming in a manner which shows cleanliness, promotes safety, and demonstrates respect for themselves and others.

Rights

Students have the right

To dress and groom as outlined in established school guidelines and as long as the dress does not disrupt the educational process or endanger the health and safety of themselves or others.

SEARCH AND SEIZURE

Philosophical Basis

Students shall be free from unreasonable search and seizure of property as guaranteed by the Fourth Amendment to the U.S. Constitution. This individual right is balanced by the school's responsibility to protect the health, safety, and welfare of others. Student lockers are the property of the school and may be subject to search by an administrator at any time with or without reasonable suspicion to protect the health, safety, and welfare of others. Search of individual students shall be based upon reasonable suspicion that the student's person, property, or personal automobile contains illegal substances, items, or material detrimental to the safety and welfare of other students or staff or in violation of the law or rules of the Student Code. Students are responsible and accountable for the contents of all items found in their lockers, automobiles, book bags, purses, and any bags or containers used to carry personal property.

All alcohol, drugs, drug-like substances, look-alike substances and/or drug paraphernalia found in a student's possession shall be turned over to the principal or designee and be made available, in the case of a medical emergency, for identification. All substances shall be sealed and documented and, in the case of substances covered by 16 Del. C., Ch. 47, turned over to police as potential evidence. A request for analysis shall be made where appropriate. (In case of medical emergency, substances should be made available for identification purposes.)

Responsibilities

Students have the responsibility

1. To refrain from possessing or concealing any substance or objects which are illegal or which may disrupt the educational process and/or school-sponsored activities/events; and
2. To monitor and control access to their lockers, motor vehicles, purses, book bags, or similar containers and to check regularly their contents.

Rights

Students have the right

1. To privacy in their personal possessions unless the principal or designee has reasonable suspicion to believe that illegal substances/objects are possessed or being concealed by the student; and
2. To be notified that a seized substance is believed to be an illegal drug. The student and student's parent/guardian have 3 days from the date of notification to dispute, in writing, that a seized material or substance is a drug.

GRIEVANCE PROCEDURES

Philosophical Basis

When a student feels unfairly treated or has not been afforded due process, a grievance may be filed. Schools are responsible for providing a means for students to express and resolve their grievances.

Responsibilities

Students have the responsibility

To try to resolve their complaints through discussion with the person(s) involved before using the grievance procedure. When using the grievance procedure, students must state the grievance clearly, follow the established procedures, and abide by the decision that results from this process.

Rights

Students have the right

To a procedure for expressing and resolving their grievances. This procedure specifies lines of communication, timelines, and a method of appeal.

STUDENT MOTOR VEHICLES

Philosophical Basis

Student motor vehicle use to and on school or District property is a privilege which may be extended by the school district to students in exchange for their cooperation in the maintenance of a safe and orderly educational environment.

Responsibilities

Students have the responsibility

1. To operate their motor vehicles in a safe and prudent manner at all times while driving on school or District property; and
2. To refrain from carrying or concealing any substance or objects in a motor vehicle which may disrupt the educational process or which are forbidden by the Student Code or state law.

Rights

Students have the right

To privacy of the contents of their motor vehicles unless the principal or designee has reasonable suspicion to believe that an illegal substance or objects and other items that may be disruptive to the educational process are being concealed by the student.

STUDENT RECORDS

Philosophical Basis

Student records are defined as any materials concerning individual students kept in any form by the School Board or its employees, except for personal notes of teachers and other school personnel intended for their use only. Student records are maintained to provide information which can be used to develop the best possible educational program for each student. Care must be exercised by the school staff to make sure that student records are treated confidentially and that the information contained therein is accurate and appropriate. Student Code of Conduct violations and disciplinary actions will normally be recorded and maintained annually. Expulsion will be recorded on the student's cumulative record folder.

Responsibilities

Students have the responsibility

1. To give school personnel ample notice that they want to inspect and review their records. Eligible students and parents have the responsibility to meet their financial obligations for school fees or fines. Transcripts and records may not be released until all student financial obligations are met; and
2. To release information to those individuals or agencies who are working in a positive manner for the benefit of the student. The permission to release information, where required, must be in writing.

Rights

Students have the right

1. To release, inspect, review, and challenge the information contained in their school records within the district guidelines and legal age requirements. School personnel shall provide assistance to students and parents to help them understand information in student records;
2. To sign for a release of the information contained in their records to authorized agencies. The student must be fourteen years of age or older to sign this release; and
3. To be protected from the release of personally identifiable information to unauthorized persons.

MARRIAGE, PREGNANCY, AND PARENTHOOD

Philosophical Basis

Students who are married, expectant parents, or parents do not lose their right to a free public education. Students are encouraged to continue their education through programs designed to meet their special needs and circumstances.

Responsibilities

Students have a responsibility

To attend school regularly or to take advantage of special programs designed to meet their needs even though they are married, expectant parents, or parents. Students who are pregnant should seek professional medical advice regarding school attendance.

Rights

Students have the right

To remain in the regular school program or to attend a special program designed to meet their educational needs.

DISCLOSURE OF CERTAIN STUDENT INFORMATION

Colonial School District may disclose certain information, known as directory information, at its discretion without consent. Parents, or students eighteen years of age or over, may refuse to permit the release of any or all directory information. If a parent or emancipated student does not want directory information released, he or she must send written notice annually to the Superintendent of the District at the address listed in the front of this booklet. Such notice must be received within 30 days of student receipt of this book. The following student information is directory information: name, address, telephone number, date and place of birth, major field of study, grade level, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, the most recent previous school attended by the student, and photographs of students in school or school activities provided the photographs do not reveal information concerning academic placement.

FERPA RIGHTS

The Family Education Rights and Privacy Act (FERPA) affords parents, and students over 18 years of age, the following rights:

Inspection and Review

Parents may submit to the school principal a written request identifying records they wish to inspect. The principal will notify them of the time and place at which records may be inspected. Access shall be provided within 45 days of the receipt of the request.

Amendment of Records

Parents may ask the District to amend a record they believe is inaccurate by submitting to the principal a written request identifying the part of the record they want changed and specifying why it is inaccurate. If the District denies the request, the District will notify them of the decision, advise of the right to a hearing, and provide the hearing procedures.

Disclosure without Consent

Disclosure of personally identifiable information contained in students' education records requires parent consent with the following exceptions:

1. Such records may be disclosed to school officials with legitimate educational interests. School officials include District employees; Board of Education members; a person or company retained by the District to perform a special task, for example, an attorney, auditor, medical consultant, or therapist; or a parent or student serving on a committee or assisting another school official. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill a professional responsibility; and
2. Upon request, the District discloses education records without consent to officials of another school district in which a student seeks or intends to enroll.

Complaint

Parents may file a complaint with the U.S. Department of Education concerning alleged failures by the District to comply with the requirements of FERPA by submitting a complaint to:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202-5920

RIGHTS UNDER PPRA

The Protection of Pupil Rights Amendment (PPRA) affords parents, students who are 18, and emancipated minors the following rights regarding the District's conduct of surveys, collection and use of information for marketing purposes, and certain physical examinations.

Protected Information Surveys

The District is required to obtain consent permitting a child to participate in certain school activities, or parents may elect to opt out of such activities. These activities, known as protected information surveys, include a student survey, analysis, or evaluation concerning one or more of the following:

1. Political affiliations or beliefs of the student or student's parent
2. Mental or psychological problems of the student or student's family
3. Sexual behavior or attitudes
4. Illegal, anti-social, self-incrimination, or demeaning behavior
5. Critical appraisals of others with whom respondents have close family relationships
6. Legally recognized privileged relationships, such as with lawyers, doctors, or ministers
7. Religious practices, affiliations, or beliefs of the student or parents
8. Income, other than as required by law to determine program eligibility

Notice and Opportunity to Opt Out

The District will notify parents of the dates of the following activities and provide an opportunity to opt a student out of participating in such activities:

1. Any protected information survey, regardless of funding source
2. Any non-emergency invasive physical examination or screening required as a condition of attendance, administered by the school or its agent, and not necessary to protect the immediate health and safety of a student, except for hearing, vision, or scoliosis screenings, or any physical examination or screening permitted or required under state law

Activities involving collection, disclosure, or use of personal information obtained from students for marketing, to sell or otherwise distribute the information to others.

Inspection

Parents may, upon request, inspect the following:

- Protected information surveys of students
- Instruments used to collect personal information from students for marketing, sales, or other distribution purposes
- Instructional materials used as part of the educational curriculum

Adoption of Policies

The District will adopt policies, in consultation with parents, regarding these rights as well as arrangements to protect student privacy in the administration of protected surveys and the collection, disclosure, or use of personal information for marketing, sales, or other distribution purposes. The District will notify parents of these policies at least annually at the start of each school year and after any substantive changes.

Complaint

If parents believe their rights have been violated, they may file a complaint with

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202-5920

Colonial School District follows all Federal and State laws and regulations.

2. No material of a sexually oriented or illegal nature is to be produced, transmitted, or deliberately viewed.
3. To inhibit the spread of computer viruses, software or files from remote sources should be checked for viruses before use.

5. All copyright laws must be adhered to at all times.
6. Student-owned software may not be installed or used on district computers.

In addition, the student may be subject to further disciplinary action as indicated by the Student Code of Conduct.

It is understood that email, Internet transmissions, and data accessed through the State and/or District is not private and may be monitored. It is expected that students have read and understand the rules above and agree to comply.

It is expected that parents/guardians have read and discussed the rules above with their child. It is understood that access to the Colonial School District's technology resources is for educational purposes and that your child has agreed to abide by Colonial School District's Acceptable Use Policy-Student as well as the State of Delaware Policy DTI-0042.02 (<https://dti.delaware.gov/pdfs/pp/AcceptableUsePolicy.pdf>).

Parents/Guardians accept full responsibility for their child's compliance. If your child's username and password are used inappropriately, it is understood that your child will be held responsible. Parents/Guardians understand that the Internet is a collection of computer networks and its content cannot be subject to complete screening by school officials. The District has taken measures to monitor and filter inappropriate access for the protection of your child. CHAPTER III

SCHOOL ATTENDANCE

Every parent, guardian, or other person having control of a child between the ages of 5 and 16 is required to send such child to school. School attendance is mandated by statute and by laws and regulations of the State Board of Education. The Student Attendance Policy of the Colonial School District Board of Education establishes specific regulations related to attendance. **(See Appendix B: Colonial School District Attendance Policy.)**

The chief school officer of the local school district is responsible for enforcing the attendance laws of the state and is the person who may excuse a child for necessary and legal absence, subject to the provisions of the **Delaware Code (Title 14)**.

The following are considered necessary and legal excused absences and may not be used to file truancy charges:

1. Illness of the student
2. Medical diagnosis and/or treatment
3. Death in the immediate family; funerals of other relatives or close friends, not to exceed one day if in the locality or three days if outside the state
4. Contagious disease in the home of the child subject to regulations of the Division of Public Health, Department of Health and Social Services
5. Legal business requiring the student's presence
6. Suspension or expulsion from school
7. Observance of religious holidays
8. Approved college visits
9. Authorized school-sponsored activities
10. In addition, the Superintendent or designee shall have the authority to approve other absences.

Absences for other reasons are classified as "unexcused."

A student enrolled in grades PK through 12 inclusive is considered truant if such a student has been absent from school without valid excuse, as defined in Rules and Regulations of the State Board of Education, for more than three (3) days or the equivalent thereof during a given school year. Schools will take action regarding unexcused absences including, but not limited to, written communications, home visits, required parent/guardian conferences, and referral of the parent for prosecution.

Parents/guardians who allow their children to be truant are subject to the following penalties as described by State Law:

Parents

<i>First offense</i>	fine of \$25 to \$300 or imprisonment for up to 10 days or both
<i>Second offense</i>	fine of \$50 to \$500 or imprisonment for up to 20 days or both
<i>Third offense</i>	fine of \$230 to \$1,150 or imprisonment for up to 30 days or both

A parent may be ordered to perform unpaid community service in lieu of a fine. If imprisoned, the court may impose conditions of release.

Students

Penalties may include community service, counseling, curfew, suspension or revocation of driver's permit or hunting license, prohibition of participation in extracurricular activities or school social events or recommendation that the student enroll in an alternative school.

ANY PUPIL 16 YEARS OF AGE OR OLDER WHO IS TRUANT ON MORE THAN THREE SEPARATE OCCASIONS DURING ONE SCHOOL YEAR MAY BE EXPELLED FROM SCHOOL BY THE BOARD OF EDUCATION.

THE SCHOOL, IN ADMINISTERING THE STATE POLICY, DEFINES THE MOST COMMONLY USED ATTENDANCE TERMS AS FOLLOWS:

EXCUSED ABSENCE

An excused absence from school or class is an absence for one of the reasons listed above and for which the required parental note of explanation has been presented on the first or second day of the student's return to school or class. Following a valid excused absence, the student will be allowed to make up all work missed, to take tests which were missed, and to submit any assignments which became due during the absence. Following an excused absence from school or class, the time allowance for taking tests or turning in assignments shall be equal to the number of school days or number of class meetings missed due to the absence. A teacher may extend the time allowance for making up work missed if the specific circumstances of the situation merit such action. The responsibility for initiating make-up work and turning in assignments rests with the student.

UNEXCUSED ABSENCE

An unexcused absence from school or class is an absence

1. Which is for a reason not listed as excused, including early dismissals without necessary or legal documentation;
2. About which the parent has no knowledge;
3. For which the parental note of explanation was not provided on the student's first or second day of return to school following the absence; and

Students suspended for periods of one to five (1-5) school days are permitted to make up missed school work in the length of time equal to the number of days absent. Teachers are not required, but are permitted, to provide make-up work to students whose suspension exceeds five (5) school days (i.e., suspension days 6 and above).

A student whose absence is unexcused shall receive no credit for assignments missed or tests given during the period of the unexcused absence unless otherwise permitted by the teacher.

While an unexcused absence may result in no credit for assignments or tests missed, students may request assignments from their teacher at the initiation of the student. If the teacher provides assignments after an unexcused absence, the time allowance for requesting the instructional materials or assignments from the teacher shall be equal to the number of school days or number of class meetings missed due to the absence. A teacher may extend this time allowance if the specific circumstances of the situation merit such action.

LATENESS TO CLASS

At the beginning of each term, the teacher shall define guidelines regarding lateness to class. When, in the judgment of the teacher, lateness becomes excessive, the student will be reported to an appropriate staff member for administrative action. Lateness to class may have a detrimental effect on student learning.

TARDINESS TO SCHOOL/EARLY DISMISSALS

All students are expected to be punctual to and remain in school. Students who arrive at their first class assignment after the start of school are tardy. A student who is late to school should present a written explanation for the tardiness on the first or second day following the tardiness. Likewise, students who leave school early without a written explanation will be deemed absent unexcused.

Students should recognize that a written explanation from home does not automatically cause the tardiness/early dismissal to be excused. Such reasons as car trouble, personal business, heavy traffic, home obligations, etc., while understandable, are not acceptable excuses and will be listed as unexcused. Reasons such as personal illness, medical appointments, and appearances in court will be considered as excused tardiness when verified by a note from home.

Students who do not attend at least half of the class periods on a given day will be marked absent for that day. Students who do not attend at least half of a given class period will be considered absent from the class unless excused by proper authority.

PRE-ARRANGED ABSENCE

A pre-arranged absence is a student's absence from school for one or more days to visit a college or university or for other educational activities approved by the principal. The absence should be pre-arranged by writing the principal, giving the full particulars of the absence. Approval for such absences should be sought, where practicable, at least one (1) week prior to the date on which the absence is to occur. Upon the development of a plan by student and teacher for making up the assignments to be missed, the principal may then define the absence as excused.

Students who must leave the building due to an emergency or some other reason which did not permit a pre-arranged absence must receive approval from the principal or his/her designee. The student is then responsible for completing the sign-out procedure before leaving the building and must present the required parental note of explanation upon his/her return to school.

ADULT STUDENT

State law provides that a student reaches legal majority at age eighteen. The attainment of adult status provides that the student may assume responsibility for signing attendance notes and other matters pertaining to school activities.

NOTE: EACH SCHOOL SHALL DEVELOP AND DISTRIBUTE TO EACH STUDENT THE PROCEDURES WHICH SHALL BE USED IN IMPLEMENTING THIS ATTENDANCE POLICY.

CHAPTER IV

SAFEGUARDS THAT PROTECT THE RIGHTS OF STUDENTS AND PARENTS

Students, and their parents as their representatives, have all the rights given to every citizen by the U.S. Constitution. Many of these rights which pertain specifically to education are defined in this document. This chapter defines the due process procedures for suspension, assignments to alternative programs, expulsion, and for filing a grievance.

Students and their parents are encouraged to become familiar with these due process procedures.

In addition to the due process procedures contained herein, the District has specific procedures for reporting and responding to complaints of discrimination and harassment by students, or employees (including approved volunteers), and members of the community on the basis of race, color, national origin, sex, gender, creed, religion, veteran status, sexual orientation, marital status, national origin, citizenship status, pregnancy, age, ancestry, disability, gender identity, genetic information, military status, or any other characteristic protected by law. Please see our website for step-by-step procedures for reporting harassment by students and employees (or approved volunteers). This policy does not address bullying; please refer to the School Bully Prevention Policy on our website.

A grievance is another name for a complaint. A student grievance exists when it is alleged that a student has been unfairly treated or has not been afforded due process. A student grievance must be filed within five (5) school days from the time of the alleged infraction.

The following persons or groups of persons may use the grievance procedures:

1. Students or groups of students
2. Parent(s)/legal guardian(s) of a student
3. Groups of parent(s)/guardian(s) of students

The grievance procedure may be used in any of the following situations:

- A. Where it is alleged that any student or group of students
 1. Is being denied access to an appropriate educational opportunity;
 2. Is being denied participation in any school activity for which the student is eligible;

3. Is being denied the opportunity to compete for a position in an activity where the selection is limited; and
 4. Is being subjected to an arbitrary or unreasonable regulation, procedure, or standard of conduct.
- B. Where it is alleged that the rights of an individual student and/or group of students are being denied or abridged

STUDENT GRIEVANCE/DUE PROCESS APPEAL PROCEDURE

When the grievance procedure is used, these steps shall be followed:

1. The grievant shall request a conference with the teacher or person(s) who allegedly treated the student unfairly.
2. If the conference fails to resolve the issue, the grievant shall discuss the problem with the principal or his/her designee.
3. If the principal fails to resolve the issue, the grievant will, upon request, be given a written notice by the principal stating the reason(s) the problem could not be resolved. Such notice will be provided within five (5) school days.
4. A grievant wishing to appeal the principal's written decision must file a written appeal with the Superintendent or designee not later than ten (10) school days from the date of receipt of the principal's written decision.
5. The Superintendent or designee shall schedule a conference to hear the grievance no later than five (5) school days following receipt of the notice of appeal and shall issue a decision in writing, no later than five (5) school days following the grievance conference.
6. The decision of the Superintendent or designee shall be the final decision of the school district. A copy of the Superintendent's final decision shall be sent to all involved parties not later than ten (10) school days following receipt of the appealed decision.

TITLE IX RIGHTS AND RESPONSIBILITIES

Title IX of the Education Amendments of 1972 ("Title IX"), 20 U.S.C. §1681 et seq., is a federal civil rights law that prohibits discrimination on the basis of sex in educational programs and activities. All public schools, like Colonial School District (CSD), that receive federal funds must comply with Title IX. Under Title IX no person shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity.

Title IX – Implementation Policy 100

Colonial School District has updated their Title IX Implementation – Policy 100. To ensure Colonial is in compliance with the new regulations, a Title IX training was administered to all potential staff that could serve as key members of an investigation. The policy was approved by the Colonial School District Board.

GRIEVANCE PROCEDURE TO ADDRESS TITLE IX DISCRIMINATION

The Title IX Compliance Officer's responsibilities include overseeing all complaints of sex discrimination and identifying and addressing any patterns or systemic problems that arise during the review of such complaints.

The Colonial School District strives to provide an environment free from sex discrimination. The District encourages students, parents, and staff to identify barriers to a discrimination-free environment in all schools and worksites. Any employee, parent/guardian of a student enrolled in the Colonial School District, or student eighteen years of age or older may file a grievance if he/she believes a student has been subjected to discrimination on the basis of sex by students, employees, or third parties. All grievances will be received and investigated in a fair and expeditious manner.

Steps to Resolution

Step 1: The best solutions to parent/student concerns often occur at the school level. Therefore, the District encourages parents/students to attempt to resolve concerns by working with the building principal or other appropriate building staff to reach a joint resolution of the issue. Contact the building principal to arrange a meeting or to discuss the complaint.

Step 2: If the issue is not resolved at the school level, the Colonial School District Grievance Form shall be submitted to the District Section 504 Compliance Officer (Director of Behavioral Health) or Title IX Compliance Officer (Assistant Superintendent) within 180 calendar days of the alleged violation to request a hearing. The Compliance Officer will be independent and impartial. If he or she has prior knowledge of the situation, an independent and impartial designee shall be appointed. He or she will thoroughly and diligently investigate the circumstances of the concern, obtain information as to relevant witnesses, and evidence, obtain all relevant evidence, hear equally from the grievant's witnesses, and other witnesses, equally review all evidence from the grievant and accused and interview and obtain statements from all relevant witnesses, and then present a report of his or her finding of fact and conclusions within 30 business days. The investigation will be adequate and reliable.

It applies to ensure that eligible students are provided with educational benefits and opportunities equal to those provided to non-disabled students. The purpose of this notice is to inform parents and students of the rights granted to them under the law and to keep parent/guardian fully informed concerning decisions about his/her child and to inform him/her of their rights if they disagree with any of these decisions.

Under Section 504, parents/guardians have the right to:

- have their child reasonably take part in and receive benefits from public education programs without discrimination because of his/her disability;
- have the school district advise parent/guardian of their rights under federal law upon request;
- receive notice with respect to identification, evaluation, or placement of their child;
- have their child receive a free appropriate public education, including the right to be educated with other students to the maximum extent appropriate;
- have their child educated in facilities and receive services comparable to those provided to students without disabilities whenever reasonable;
- have their child be given a reasonable equal opportunity to participate in non-academic and extracurricular activities offered by the school district;
- have evaluation, educational, and placement decisions made based up a variety of information sources, by a group of persons who know the student, the evaluation data, and placement options;

- examine all relevant education records relating to decisions regarding their child's identification, educational program, and placement;
- receive a response from the school district to reasonable requests for explanations and interpretations of their child's record.

Disabled parents/guardians will be afforded reasonable accommodation if required to allow participation in their child's education.

The Colonial School District shall not discriminate in its employment practices or its educational programs and activities of students on the basis of race, creed, color, religion, national origin, age, sex, sexual orientation, domicile, marital status, disability, genetic information, veteran status, or any legally protected characteristic.

SUSPENSION FROM SCHOOL

A suspension is the temporary removal of a pupil from regular school attendance for a period not to exceed five (5) school days. The Superintendent or designee, however, may extend a suspension past the five (5)- day period pending a decision on a principal's recommendation to expel or for Code violations determined to be serious. While serving an out-of-school suspension, a student is forbidden from being on the property of the Colonial School District for any reason unless accompanied to a pre-arranged appointment by a parent or guardian. This includes sporting events or any school sponsored activities.

Prior to a suspension from school, the student shall

1. Be given oral or written notice of the charges, and if the charges are denied, be given an explanation of the evidence known to school authorities;
2. Be given a fair and impartial hearing conference and have the opportunity to present his/her side of the story;
3. Have had prior opportunity to know that the alleged actions were in violation of established rules and regulations; and
4. Be advised that the suspension may be appealed to the next administrative level.
5. Reasonable attempts are made to involve the parent/guardian or student in the investigation prior to suspension.
6. Within 3 business days, parent(s)/guardian(s) was mailed a notice identifying appeal rights and the cause and duration of the suspension.

If, post-investigation, proceeding toward alternative placement or making a recommendation for expulsion, step 7 must be completed and documented by a witness, per **Regulation 616, section 7.2.1.7.3**

7. For all referrals for Alternative Placement for a general education or special education student, the Principal shall hold a Building Level Conference with the Parent and the student. The Principal shall explain to the Parent and the student the purpose of the meeting is to inform them:
 - A) of the referral for Alternative Placement;
 - B) that the student may be suspended pending the outcome of the district/charter school Alternative Placement Team Meeting and;
 - C) of the procedures that will take place as follow-up to the referral for Alternative Placement.

The conference shall be held by phone or in person. The Principal shall have at least one other person present to take notes during the conference or shall have the conference audio recorded.

Notice of the Alternative Placement Meeting shall be mailed to the Parent and the student via regular U.S. and certified mail at least five business days before the meeting is to occur.

Generally, due process should precede the student's removal from school. However, if this is not feasible or if the immediate removal of the student from school is necessary to protect the safety of individuals, property, and/or the educational process, the necessary notice and hearing will follow as soon as practicable.

In all cases of suspension, an attempt shall be made to notify the parents by telephone and, if necessary, to request that the student be picked up from school. Students whose parents cannot be reached by telephone will be retained at school until the end of the school day.

When a student is suspended, written notification of the suspension will be sent to the parents within 3 days. The notification shall state the cause and duration of the suspension. If suspension is for more than three days, a definite time and date for a hearing on the suspension shall be scheduled at a place designated by the principal. Every effort will be made by the school and the parent/guardian to conduct a conference prior to or upon the return of a student to school following a suspension.

Following the fourth (4th) out-of-school suspension in any one school year, or before as determined by school administration, the student must be brought up to the School Based Team for further review and intervention.

In the case of students with disabilities (as that phrase is defined under Federal regulations promulgated under the Individuals with Disabilities Education Act, the regulations and procedures as stated in the State of Delaware Administrative Manual for Exceptional Children shall be followed.

IN-SCHOOL SUSPENSION is the temporary placement of a student in a supervised area other than the area indicated by the regularly assigned schedule.

SUSPENSION OF BUS PRIVILEGES

(SEE APPENDIX C: TRANSPORTATION CONDUCT OF PUPILS)

Riding a school bus is a privilege. Suspension of bus privileges is the temporary removal of the opportunity to ride the school bus. Such suspensions are for a period not to exceed five (5) school days. The principal may, however, suspend bus privileges for a period to exceed five (5) days for repeated and/or serious misbehavior. Suspension for longer than five (5) days must have the approval of the Superintendent or designee. Suspension of bus riding privileges does **NOT** mean suspension from school. Exceptions to this policy will be made as required for students with disabilities.

Prior to the suspension of bus privileges, the student shall

1. Be given oral or written notice of the charges and be told who is making these charges or complaints
2. Be given a fair and impartial hearing and have the opportunity to present his/her side of the story
3. Have had prior opportunity to know that the alleged actions were in violation of established rules and regulations
4. Be advised that suspension of bus privileges may be appealed to the next higher authority

In all cases of suspension of bus privileges, an attempt shall be made to notify the parents by telephone with a written notification of the suspension sent to the parents within twenty-four (24) hours.

During the suspension of bus riding privileges, it shall be the parent's responsibility to provide the student's transportation to and from school.

Suspension of bus privileges shall not be used as a disciplinary action for non-bus related violations.

ASSIGNMENT TO ALTERNATIVE PROGRAM

Assignment to alternative programs is the removal of a student from the regular school program with placement in a program designed to meet the student's particular needs. Alternative programs may be located at the student's home school, another district school, or an approved site outside the district.

Assignment to an available alternative program will be made according to procedures established in Administrative Code **Title 14, Regulation 616**

(<http://regulations.delaware.gov/AdminCode/title14/600/616.shtml#TopOfPage>)

EXPULSION

Per Title 14 Education, Regulation 616 Uniform Due Process for Alternative Placement Meetings and Expulsion Hearings, Section 10

State regulations define expulsion as "... the exclusion of a pupil from school."

By state law, students expelled from any public (in Delaware or any other state) are not permitted to attend any public school in Delaware during the period of expulsion.

When a student commits a violation that may result in a recommendation for expulsion, the following procedure should be followed:

STEP I

1. The principal shall investigate all aspects of the discipline problem, including a conference with the student and his/her parents or guardians, if possible, at which time the student will be informed of the charges and afforded an opportunity to "tell his/her side of the story."
2. The principal shall complete the investigation within three (3) school days of the incident under investigation.
3. The student shall be suspended for five (5) school days.
4. Post investigation, if the principal concludes that the student committed the offense and that the nature of the offense warrants a recommendation for expulsion, the principal shall hold a building level conference with the parent and student to review the recommendation for expulsion, notify that the suspension is extended pending the outcome of the expulsion hearing and explain the procedures that will take place as follow up to the recommendation for expulsion.
5. All documentation related to the recommendation for expulsion shall be submitted to the Superintendent within 2 business days of the Building Level Conference or seven (7) business day of the incident, whichever is sooner.
6. The Superintendent shall review the documentation to affirm that appropriate discipline procedures were followed. The Superintendent shall, within ten (10) business days of the date of the incident, notify the student and the parent by letter that a district-level expulsion hearing will be held to consider the recommendation.
7. In lieu of a formal Expulsion hearing, a student may elect to waive the hearing and admit to the student's violation charge. The student and parent shall submit a signed written hearing waiver which indicates that the student is knowingly and voluntarily waiving their right to the hearing. This waiver does not absolve the student from required consequences under Federal or State Law or the Student Code of Conduct.

STEP II

1. Within ten (10) school days from the date of completing the investigation that results in a recommendation for expulsion, the Superintendent will notify the student (if an adult) and the student's parents or guardians of the intent to expel and of the date, time, and location for a hearing. The notice of intent to expel shall

be sent by certified mail or hand delivered and shall state the reasons for the expulsion and the time and place of the hearing as well as the expulsion procedures. If notification is postmarked within the limits indicated, requirements under this provision are met.

2. The hearing shall be held no less than seven (7) or more than twenty (20) school days, after receipt of the written notice. The written notice shall be deemed to be received on the fourth business day following the day of mailing. The time period may be waived by agreement of both parties.
3. The hearing shall be conducted by a hearing officer. The hearing officer may be an employee of the District, but must be impartial.
4. The hearing officer shall have full authority to control the conduct of the hearing, including authority to admit or exclude evidence. In conducting the hearing, the hearing officer shall not be bound by common law or statutory rules of evidence or by technical or formal rules of procedure. The hearing officer shall exclude irrelevant evidence. Unduly repetitive proof, rebuttal, and cross-examination shall be excluded. The witnesses shall be sworn in by the hearing officer.
5. The student shall have the following rights:
 - a. To be represented by counsel, at the student's expense.
 - b. To cross-examine witnesses.
 - c. To testify and produce witnesses on his/her behalf.
 - d. To obtain, at the student's expense, upon written request, a copy of the transcript of the hearing.

STEP III

1. Within five (5) days following the conclusion of the hearing, the hearing officer shall prepare a report for the Superintendent. The report shall summarize the proceedings, state findings of fact, and make a recommendation as to whether the Board should expel the student.
2. If the hearing officer does not recommend expulsion, the hearing officer may permit the student to return to school pending a review of the report by the Board.
3. The Board shall make its decision at the next scheduled public Board Meeting.
4. The Board shall conduct a review of the evidence, transcript presented to the Hearing Officer and the Hearing Officer's recommendation. The Board may accept, reject or modify the recommendation of the Hearing Officer.
5. The Board's decision shall be in writing and shall be based solely upon the report from the Hearing Officer.

STEP IV

1. The parents/guardians of a student who is expelled shall be informed that they may apply for the student's readmission at the end of the period of expulsion and must provide verification that all conditions for readmission have been met.
2. Upon readmission to school, the student will be placed on probation. The student will be assigned to a counselor who will monitor his/her behavior, academic performance, and provide assistance for a period of at least one semester.

3. A student is prohibited from being on Colonial School District property during the expulsion period except when accompanied by a parent or guardian for a scheduled appointment with school officials.
4. By state law, the Superintendent of Schools shall notify the Division of Motor Vehicles concerning the expulsion of a student who is of legal driving age or who will become so during the expulsion period. The Division shall suspend or refuse to renew the driver's license of the expelled student or refuse to issue a license to the student. The student shall remain ineligible for a driver's license until the expulsion period is over or until he or she becomes 19 years of age.
5. Normally a student shall be readmitted at the beginning of a marking period.

STUDENTS WITH DISABILITIES

1. In the case of a student with a disability being considered for expulsion or suspension in excess of 10 days cumulatively in one school year, a special education team meeting will be convened.
2. The special education team will determine whether (1) the alleged conduct was related to the student's disability; or (2) the alleged conduct resulted from the school's failure to implement an IEP.
3. If the special education team determines that either of the above standards is met, suspension or expulsion is not authorized; and the student's program and placement should be reviewed.
4. If the special education team determines that neither of the above standards are met, the principal will follow the Student Code of Conduct. To the extent required by state or federal law, a student identified as having a disability under the Individuals With Disabilities Act (IDEA) who is expelled or suspended in excess of 10 days is entitled to a free, appropriate public education.
5. If a student with a disability presents a danger to oneself or others or is so disruptive that the behavior substantially interferes with the rights of other students to benefit from an education, an interim change of placement may be authorized by either the (1) special education team decision accompanied by parental consent; or (2) court order or as otherwise afforded by law.
6. Nothing stated herein shall preclude the special education team from placing a student with a disability determined to have brought a firearm or drugs to school or to have caused serious bodily injury in an interim alternative educational setting in accordance with state and federal law.

DEFINITIONS

"Student with disability" refers to a student eligible for special education under either: (1) the Individuals With Disabilities Act (IDEA) as implemented by state regulations compiled in the Administrative Manual: Programs for Exceptional Children (AMPEC); or (2) Section 504 of the Rehabilitation Act.

"Special education team" refers to an Individual Education Program (IEP) team for students eligible under the IDEA and a multidisciplinary team for students eligible under Section 504. The composition of both teams should include individuals

knowledgeable about the student, the meaning of evaluation data, and placement options.

Questions, comments or concerns regarding a student with an IEP or 504 Plan should be directed to the building principal and if unresolved it should be directed to:

CHAPTER V

VIOLATIONS OF THE CODE OF STUDENT CONDUCT

The Code of Student Conduct defines specific acts which are considered violations of expected student behavior. School rules come from many sources including State Law, Board of Education Policy, and District Guidelines and Regulations. These violations are examples of those acts which disrupt the school environment and the instructional process. The aim of this chapter is to provide school personnel, parents/guardians, students, and the community clear understanding of code violations and resulting disciplinary actions.

A major consideration of the Code of Student Conduct is to identify appropriate disciplinary actions to bring about positive student behavior. The severity and frequency of the misbehavior and the age and maturity of the student are considered in defining appropriate disciplinary action. It is understood that the severity of a violation of the Code necessitates disciplinary action that is appropriately severe. While administrative personnel bear the major responsibility for effectively carrying out the discipline policies, the total staff plays a vital role in resolving problems and influencing student behavior.

When appropriate schools may utilize “Restorative Practices” in response to disciplinary infractions. Restorative Practices, derived from the “restorative justice” approach in the criminal justice field, can be used to address conflicts in schools. Rather than punitive consequences, the objective is to use conflicts as an opportunity to improve relationships, foster learning, and develop social-emotional skills. Restorative practices empower students to resolve issues independently and in small groups, with the guidance of school staff, using open-ended questions and generating solutions to amend misbehavior.

Schools may also use logical consequences/solutions to the misbehavior that align with the Responsive Classroom framework. With this approach, staff is charged with assuming the best intentions from students, even when students misbehave. Misbehavior is a form of communication, and staff must seek to understand what skill the student might lack that resulted in the misbehavior, punitive consequences may damage student-staff relationships and are unlikely to encourage a more positive replacement behavior. The objective is to help students take responsibility for behavior, learn from mistakes, and ultimately develop skills to manage their own behavior.

The Code of Conduct shall also apply to out-of-school conduct by a student if the District believes that the nature of such conduct indicates that the student presents a threat to the health, safety, or welfare of other students or staff.

Such out-of-school conduct shall include, but not be limited to

- acts of violence which are punishable by law;
- sexual offenses which are punishable by law;
- the sale, transfer, or possession of drugs, which would constitute an offense punishable by law; and
- felony charges.

Nothing in this section dealing with out-of-school conduct will have any effect on or alter in any way the application of the Code for in-school conduct.

The following pages list and define violations and disciplinary actions. The Code permits administrators and teachers to select from a list of recommended actions for certain violations. Specific disciplinary actions are required for other violations.

The principal or designee shall conduct such an investigation as is reasonable under the circumstances to confirm that the charged offense has in fact been committed.

Participation in School Activities

Students participating in extracurricular programs and activities are expected to maintain District standards of behavior in their school and community as defined by the Student Code of Conduct.

Any student placed on a behavior contract will be ineligible to participate in any school-sponsored extracurricular activity or program for 90 school days.

Any student who violates District-approved team or group pledges or rules may become ineligible to participate in school-sponsored extracurricular activities or programs for 45 school days if recommended by the school administration.

The District administration may also declare a student ineligible to participate in any or all school-sponsored extracurricular activities and programs for a set period of time when that student's behavior results in a threat of harm to the health, safety, or welfare of staff or students or to the reputation of the District.

Furthermore, the students do not have a right to participate in extracurricular activities in order to secure financial assistance to attend college.

In order for a student participant to receive season recognition, such as awarding of a letter or plaque or certificate, nominations for conference and state recognition, and participation in end-of-year team banquets and other such events, an individual must have completed the entire season and be in good standing throughout that season, as determined by the District.

Participation is a privilege which may be forfeited due to misconduct or failure to attain and maintain required GPA, which varies by grade configuration.

Under certain limited circumstances, students who become the victims of a violent act perpetrated by another student may make use of the Choice process to change schools.

Additionally, any students who are suspended for violations of the Student Code of Conduct or suspended from the team or activity for inappropriate conduct that violates the team or activity rules will not be permitted to attend any school events during that period whether these events are conducted at the school or any other location.

APPENDIX A

SCHOOL POLICE RELATIONSHIPS

To insure that both students and parents are aware of the required relationship between the school and the police agencies, the following excerpts are provided from the Memorandum of Agreement between the Board of Education of the Colonial School District and Law Enforcement Agencies in New Castle County. The text of the complete agreement will be provided upon request to the School District Office.

School officials are charged with the responsibility to provide for the safety of students and for the security of school property. School officials shall report promptly evidence of criminal offenses which occur in the school environment, including incidents which occur on school buses and during any school function whether on or off school property. Additionally, evidence of those crimes which have occurred outside the school environment but which come to the attention of school authorities should be reported. The Delaware Code mandates reporting of the offenses listed in 14 Del. C., section 4112; a substantial fine can be assessed against any superintendent, principal, or school employee who fails to make such a mandatory report.

Crimes for which police reports are mandated by law are the following:

1. Violent felony, Assault III, Unlawful Sexual Conduct III committed by anyone against a student or school volunteer on school property or at school function
2. Violent felony, Assault III, Unlawful Sexual Conduct III committed by anyone against a school employee on school property or at school function
3. Possession of a controlled substance or possession of a weapon or dangerous instrument by anyone on school property or at school function

In addition to the offenses listed in Section A above, the Colonial School District requires police notification of the following offenses when committed by students on school property or at a school function. This list is not all-inclusive. Other incidents of a potentially serious or violent nature must also be reported.

- Arson
- Attempted rape or rape
- Breaking and entering
- Extortion
- Indecent proposition/exposure (2nd offense)
- Reckless driving (2nd offense)
- Robbery

- Trespassing (2nd offense)
- Vandalism (2nd offense)

FILING OF CHARGES

In any instance in which a student, parent, or guardian is found to have committed an assault, offensive touching, terroristic threatening, or an extortion under 14 Del. C., section 4112(b) against a school employee, the Superintendent or his designee shall, without unreasonable delay, file the appropriate charge against the student, parent, or guardian.

APPENDIX B

COLONIAL SCHOOL DISTRICT ATTENDANCE POLICY

All students are expected to attend school each day that it is in operation during the regular school year unless properly excused in accordance with state regulations.

Excuses recognized as valid are the following:

- Illness of the student
- Medical diagnosis and/or treatment
- Death in the immediate family; funerals of other relatives or close friends, not to exceed one day if in the locality or three days if outside the state
- Contagious disease in the home of the child subject to regulations of the Division of Public Health, Department of Health and Social Services
- Legal business requiring the student's presence
- Suspension or expulsion from school
- Observance of religious holidays
- Approved college visits
- Authorized school-sponsored activities

In addition, the Superintendent or designee shall have the authority to approve other absences. For any absences, students are required to present a written excuse signed by a parent/guardian. Such excuses shall be kept on file in the school for the current school year. A physician's validation may be required at any time. Parents/guardians of such students may be subject to legal penalties under the Delaware Code. Schools will take action regarding unexcused absences including, but not limited to, written communications, home visits, required parent/guardian conferences, and referral of the parent and/or student for prosecution.

Students shall have the opportunity to make up school work missed during all excused absences, except for absences due to expulsion or extended suspensions. Since attendance is closely related to achievement, schools will make reasonable attempts to contact parents/guardians regarding absences and will call upon whatever resources are available within the school district and the community to ensure good attendance.

Official notice concerning cumulative absences will be given to parents/guardians periodically; at a minimal level, such notice shall accompany report cards.

APPENDIX C

TRANSPORTATION CONDUCT OF PUPILS

The following rules can be enforced only with the cooperation of every person concerned with transportation. Observance of these rules will insure safety, prompt arrivals and departures of buses, and proper attitudes on the part of pupils. Good citizenship will be promoted. Violations of these rules may result in the suspension of bus riding privileges.

- A. Pupils must obey the driver promptly and be courteous to him/her and to fellow pupils. The driver is in full charge of the bus and pupils and has the authority of a classroom teacher.

APPENDIX D

Suicide Prevention Training

The Colonial School District recognizes the serious problem of youth suicide and acknowledges that providing this policy for schools and districts related to youth suicide recognition and prevention is very important. The District also acknowledges that youth suicide is a complex issue, which cannot be addressed by districts and schools alone. This Suicide Prevention Policy (Policy Number: 297) meets the requirements of 14 Del. C. 4142, relative to Suicide Prevention.

Suicide Prevention Training

Suicide Prevention Training for Public School Employees

Each public school employee of the District shall participate in at least one combined training each year totaling ninety(90) minutes on suicide prevention. The training materials shall be evidence-based and developed and/or approved by the Department of Education, Department of Health and Social Services, and the Department of Services for Children, Youth and their Families. Any in-service training required by this section shall be provided within the contracted school year as provided in 14 Del. C. 1305(e).

Suicide Prevention Program

The District shall develop a Suicide Prevention Program. The components of the District's Suicide Prevention Program may vary to address the needs of different grade levels. Each school shall establish a committee that is responsible for coordinating suicide prevention program within the school. This can be addressed through a currently existing committee in the school.

Confidential and Anonymous Reporting

School staff shall follow the District "Crisis Intervention Procedures for Suicide Threats" to provide confidential and anonymous reporting of a student demonstrating the warning signs of suicide. The document outlining the process will be maintained by the principal or a staff member designated by the principal and a copy will be sent to the Student Services Office. At a minimum, any privacy rules shall be followed, including any applicable Family Educational Rights and Privacy (FERPA) and Health Insurance Portability and Accountability Act (HIPAA) provisions.

Procedures for communication between school staff members and medical professionals who are involved in treating students for suicide issues.

For a student who has not reach the age of 18, Release of Information forms shall be signed by the parent, guardian, or relative caregiver in order for the primary care physician or healthcare professional to communicate with school personnel regarding any treatment of a student.

Notwithstanding the foregoing, communications between healthcare professionals and school staff regarding any treatment of a student may occur for any student 14 years or older who has provided consent for voluntary outpatient treatment in accordance with 16 DEL. C. 5003. In accordance with HIPAA and FERPA guidelines, releases shall be signed before communication may take place. Communications without signed releases in emergency situations may occur in accordance with HIPAA and FERPA regulations and guidelines.

- If a parent refuses to sign a release form at school, the school will review this policy with them, explaining the reasons the release would be advantageous to the student.
- Emergency evaluations can be obtained from hospital emergency departments; a licensed healthcare professional; a physician; or nurse practitioner; or from the state's Child Priority Response Mobile Crisis Service if the student is under 18 years of age, or from the Adult Mobile Crisis Service if the student is between the ages of 18-21.

Posting of Suicide Prevention Policy

The District shall post this Suicide Prevention Policy in all student and staff handbook(s) and on the District's website.

Retaliation Restrictions

No employee, school volunteer or student shall be retaliated against for reporting a student thought to be demonstrating the warning signs of suicide.
